Welcome Message

On July 12-14, 2024, Sungkyunkwan University (SKKU) and Sungkyun Economic Research Institute (SERI), under the auspices of SKKU Global Finance Research Center (GFRC), SKKU Department of Economics BK21 Four Program, SKKU Research Institute of Applied Statistics (RIAS), and SKKU ICT Challenge and Advanced Network of HRD Program, host an international conference on finance and economics. This conference is also supported by the research project of NRF (National Research Foundation of Korea), which is titled “Interdisciplinary Research on Cryptocurrency, Derivatives, and Investor Sentiments: Engineering Approaches based on Machine Learning, Complex System, and Big Data”.

It promises to be a gathering of brilliant minds—both passionate researchers and dedicated professionals from around the world—who will address important issues. As the head of SERI, it is my pleasure and great honor to invite you to attend this esteemed academic conference. Our conference serves as a unique platform for interdisciplinary collaborations, where experts from diverse fields come together to share their insights, discoveries, and ideas. This, in turn, promotes further advances. Indeed, the significance of such collaborations cannot be overstated. It is often through the interaction of researchers from diverse disciplines that significant breakthroughs occur, new perspectives emerge, and transformative discoveries are made.

We have an exciting lineup of keynote speeches, paper presentations, and panel discussions. We will delve into a wide array of topics, ranging from traditional finance and economics to the disruptive forces of technology and innovation. Our agenda is thoughtfully designed to address key issues such as Artificial Intelligence, Big Data, Cryptocurrency, Digital Transformation, ESG, Financial Innovation, Machine Learning, and Sustainable Finance. This event provides a wonderful opportunity to engage in spirited discussions, challenge existing paradigms, and explore novel approaches to the most pressing issues in our respective fields. Our keynote speakers include Jonathan Batten (Co-editor, Finance Research Letters), Peter Szilagyi (Editor-in-Chief, Journal of International Financial Markets, Institutions & Money), and Robert Webb (Paul Tudor Jones II Eminent Research Professor, UVA McIntire School of Commerce).

We sincerely appreciate our co-host divisions, the SKKU Global Finance Research Center, SKKU Department of Economics BrainKorea21 Four Program (Head: Sunghyun Henry Kim), SKKU Research Institute of Applied Statistics (Head: Chamin Kim), and SKKU ICT Challenge and Advanced Network of HRD Team (Head: Eunil Park). We especially thank our two long-standing academic partners, the Korean Association of Financial Engineering (KAFE) and the Japanese Association of Financial Econometrics and Engineering (JAFEE), for their strong support and participation. We sincerely appreciate the steadfast support and relentless participation of our SERI members. Without their support, this series of SKKU conferences would not have achieved its current high status.

I look forward to welcoming you to the 2024 SERI International Conference.

Doojin Ryu, Ph.D.
Head, Sungkyun Economic Research Institute (SERI)
